BB1250 Boring Bar

On-site Portable Bore Repair System Saves Time and Money

Mactech's portable BB1250 Boring Bar Bore Repair System is a powerful and versatile machine for in-line bore machining, welding and repair. The compact size and easy set-up make this one of the most efficient bore repair systems on the market. A powerful variable speed motor can cut through the toughest materials. The spherical fixture mounting system makes installation and centering easy and accurate.

The 30mm Boring Bar makes your bore repairs quick and easy, all done on-site to save the time and expense of shop repair

30mm diameter Boring Bar

Variable Speed

Electric Drive

40mm to 150 mm bores

Bi-directional Electrical
Variable Feed

Uses 10mm round tooling

Balanced weight distribution
along length of the bar

BB1250

Technical Specifications

- Drive Motor Electric: Options available.
- Feed Unit: Bi-directional, variable feed, independent of bar speed.
- Set-up: Two alignment cone assemblies for 40-150 mm bores. Self-aligning bearing mounts with spherical bearings. Tool holder for 10mm round tooling.
- Extended tool holders for upto 150mm bores
- Boring Bar: 30mm diameter, stainless steel, two 10mm diameter broaches every 250mm for tool and measuring devices.
