## Tube Weasel Millhog Electric

The Electric Powered Tube Weasel MILLHOG® beveling tool offers all the benefits of the pneumatic version for end prepping all boiler tube materials and is only 2.625in wide for accessing single tubes in a boiler tube waterwall (Dutchman).

The rugged gear drive is the same one used in the Wart MILLHOG® and driven by a 110v or 220v 950 watt electric motor for convenient plug in power.

### Key Features

- Compact low maintenance end prep tool
- Patented push-pull clamping and release system
- Rigidly mounts to tube i.d., easy to release
- Self centering torque free operation
- Permanently attached clamps and wrenches
- Sealed construction allows use in any orientation
- Produces a smooth continuous chip
- Performs any angle of bevel
- Steel housing with integral radial-thrust ball bearing
- Chatter free blade locking system
- Uses TiN and Hard Lube coated cutter blades.
