

60 inch Inline Diamond Wire Saw SS

Used for Subsea and Topside Cutting

The compact and robust design of Mactech's 60 inch Inline Saw creates an ideal removal time which reduces cost.

This specific saw is designed to give you maximum cutting range flexibility, small footprint and reliable operation

The workhorse of the diamond wire saw fleet, our Inline Saws have all the features you need to efficiently cut casing and structures.

These saws have performed thousands of successful cuts in the Gulf of Mexico and around the world.

Operational Benefits

- Used for subsea and topside cutting
- Operates in any position
- Cuts multi-string casing, square piles, steel, and concrete
- Easily modified for specialised cuts
- Cuts in any orientation, upside-down, right-side up, or at any angle
