Environmental Policy		

The Directors of the Beckenham Engineering Group Limited are dedicated to the continual improvement of each business concern within its portfolio. Each business model has a structured top-level management system, with the ownership of operational procedures and system compliance. Where this policy is applicable the business and the scope is detailed below.

MACTECH EUROPE LTD

The design, manufacture, procurement, sale and rental of on-site machining equipment and provision of on-site machining services

Beckenham Engineering Group Limited is committed throughout all its business activities to respect the environment and to make responsible use of available natural resources. The Company recognises that some aspects of its activities may have an impact, either positive or negative, on the environment. These aspects, and their associated impacts, have been identified and are taken into account in establishing, implementing and maintaining the Environmental Management System in accordance with ISO14001:2015. The Company is committed to the prevention of pollution and the continual improvement of our environmental performance.

Beckenham Engineering Group Ltd pay particular importance to compliance with appropriate legislation and regulations. The company will monitor performance and continually strive for improvements in the following areas:

- Efficient use of energy
- Reduction and disposal of waste
- Marketing environmentally balanced products
- Risk reduction to our employees and our community

The Group Managing Director has the ultimate responsibility for ensuring that the necessary means exist within the company to implement and monitor the effectiveness of this policy. However, all employees have a responsibility to themselves, their colleagues, the company and to the community to care for the environment and to cooperate to achieve the high standards required by this policy.

This policy is communicated to all employees and other interested parties and is publicly available upon request.

The Environmental Policy and objectives are reviewed annually at Management Review or if changes in procedure, legislation or identification of required changes through the audit process deem it necessary.

To assist in the implementation and maintenance of the Environmental Management System the Company operates a 4 R's principles:

- **Reduce** waste where possible by thinking about what we buy and how we use it;
- **Re-use** wherever possible by trying to find a second life for items especially paper, packaging and stationary;
- **Recycle** all possible items including paper, card, glass, tin, cartridges;
- **Rethink** how we use resources to make sure we are being efficient and effective

Mark Davies
Managing Director
