

Esco G-Series Cutting Blades

Cutter Blades for the following machines
Ground, C-Hog, Mongoose and Tube Weasel MILLHOGS

Millhog Cutter blades have a sharp edge that gets under the material and radical chip breaker that curls a thick chip and transfers heat away from the surface.

An endless range of standard and customer cutter blades are offered with Titanium Nitride (TiN) coating. For Extended blade life, try the new 'Hard Lube' coated cutter blades which provide superior heat resistance and more end preps per blade.

Titanium Nitride Coated (TiN) Cutter Blades for the entire Millhog family of End Prep Tools produce a Thick Chip without cutting oils.
