

BB 1750 Portable Boring Bar

44.45 mm (1.75") Diameter Boring Bar

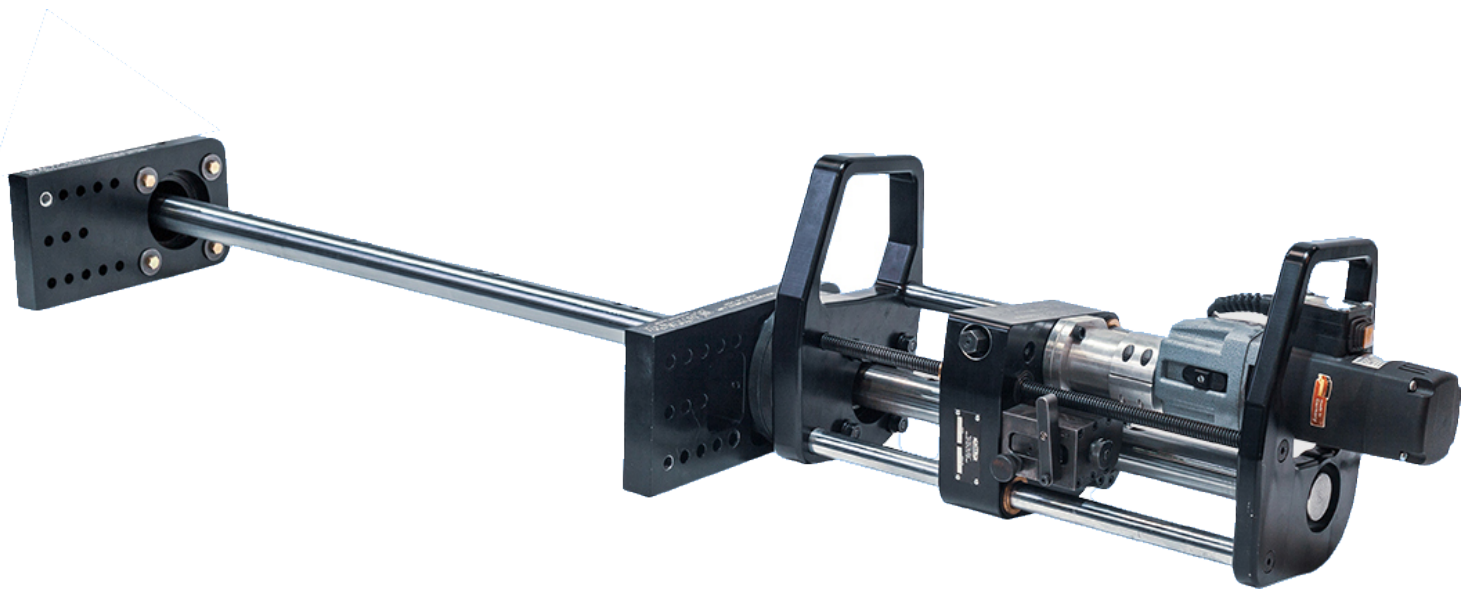

Mactech's portable BB1750 Boring Bar Bore Repair System is both powerful and versatile

The compact size and easy set-up make this one of the most efficient bore repair systems on the market.

A powerful variable speed motor can cut through the toughest materials.

The spherical fixture mounting system makes installation and centering easy and accurate.

The BB1750 can be changed from machining to welding in seconds using the same set-up, making your bore repairs quick and easy, all done on-site to save the time and expense of shop repair.

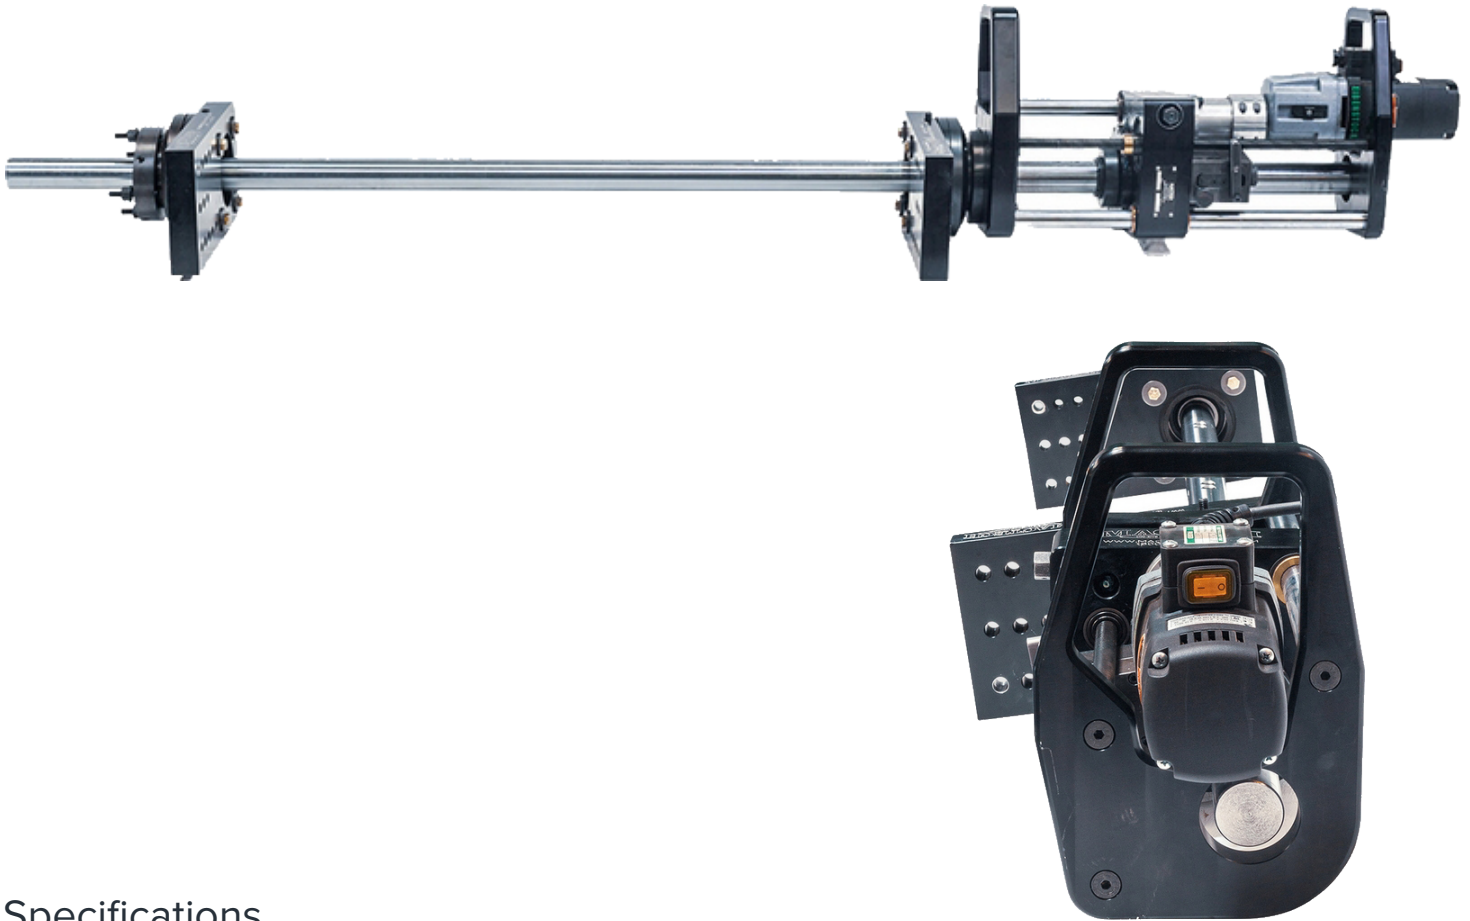

Benefits

- 1¾ inch Boring Bar
- Variable Speed
- Electric, Air or Hydraulic Drive
- 2 to 10 inch bores
- Bi-directional Variable Feed
- Manual Feed Adjustment
- Uses standard ½ inch tooling
- Balanced weight distribution along length of the bar
